Figure 1 consists of two parts: a plan view (top) and a cross-sectional view (bottom). The plan view shows a square substrate 20A with a circular pattern. The pattern includes three concentric circles labeled C1, C2, and C3 from outermost to innermost. Two sets of overlapping circles are also shown, labeled A1/A2 and B1/B2. A horizontal X-axis with arrows at both ends passes through the center of the circles. The cross-sectional view shows the substrate 1008 with a patterned layer 1014 on top. The patterned layer has regions labeled A1, B1, C1, A2, B2, and C3, which correspond to the circles in the plan view. Vertical dashed lines connect the circles in the plan view to the corresponding regions in the cross-section. Specific regions within the patterned layer are labeled Va, Vb, and Vc.
